The company received a Gold Dolphin in the Integrated Communications category for a video produced for the European Commission, [Farming: At The Heart of Our Life](#). The animated video was developed for the Directorate-General (DG) for Agriculture and Rural Development as part of a larger school education campaign to show that farming is more than a job, but also an important way of life.

The company also received a Gold Dolphin in the Environmental Issues and Concerns category for [Plastic Bags – Breaking the Habit](#), a creative clip produced for DG Environment to encourage citizens to reduce their consumption of single-use plastic bags.

"We are often asked to transform complex subject matter into engaging, memorable and visually-arresting stories," said [Tobias Schafer](#), division director for ICF Mostra.
