Compelling Strategic Rationale – The Big Picture

IT modernization and cloud is estimated to be a $21B Federal market\(^1\), comprised of large projects.

Sustaining ICF’s future revenue growth requires a broader technology offering beyond existing engagement, cyber, and software development.

Creates immediate revenue synergies due to the combination of ICF’s domain expertise and client relationships with ITG’s IT modernization capabilities.

Compelling Strategic Rationale – The Details

- ITG’s expertise and past performance with Agile systems engineering, business process engineering and cloud-based platforms significantly enhance ICF’s implementation services.
- Adding these capabilities combined with strong past performance qualifications enables us to more effectively compete for large $100M+ IT modernization opportunities.
- ITG’s partnerships and ability to deliver on platforms, such as ServiceNow and Appian, is a competitive advantage.
- ITG’s proven ability to deliver Agile software teams at GSA is a model that will resonate across ICF’s client base, including HHS, DHS, DoD and even private sector entities.
- ICF’s deep domain expertise and client relationships provide an easy entry point for ITG’s “proof of concept” sales model to thrive, where ITG showcases how technology can be used to solve customer challenges.
Capabilities

ITG combines its end-to-end IT consulting capabilities with leading technology platforms to deliver transformational solutions.

Full Lifecycle Solutions

- Enterprise Architecture
  - Tailored delivery methodologies and industry frameworks to deliver actionable analyses, strategic vision, and roadmaps for digital

- NextGen Technologies
  - Delivering prototypes and solution in IoT, AI, green and sustainable tech, and machine learning for various industries

- Cloud-Based Platform Implementations
  - Cloud-based ecosystems leveraging best-of-breed solutions to deliver highly available, exceptionally scalable, and extremely secure business applications

- Business Process Engineering
  - Process management methodologies to automate, streamline, and document critical functions in both the public and private sectors

- Digital Service Centers
  - Encompassing best practices, technologies, guidelines, and accelerators to maximize business and IT investments, product licensing, and velocity

- Agile Systems Engineering
  - Develop, maintain, and integrate platforms, applications, and COTS products, empowering scalable, efficient, and effective operations.
ITG has made strategic investments to develop new technology practice areas that have helped drive growth and new customer acquisition.
Meaningful Joint Growth Opportunities

- ITG brings a substantial business development pipeline and a backlog that provides visibility
- ICF has a large number of net new opportunities in its pipeline for which ITG enhances our win potential
- Combination of ICF’s deep domain expertise and broad client base with ITG’s IT modernization skills will allow us to identify “new-new” opportunities
- Opportunity also exists to bring in-house the revenues historically subcontracted out by ITG
Financial Considerations

- Cash purchase price of $255 million; the transaction will be accretive in 2020 on a non-GAAP EPS basis
- ITG revenue run-rate >$100 million
- Net present value of tax benefit to ICF estimated at $33 million
- ITG EBITDA margin in mid-teens
- ICF’s existing credit facility will be used to fund ITG acquisition
- Leverage ratio is expected to be less than 2.7
Preliminary 2020 Guidance Considerations

- ICF’s preliminary 2020 revenue guidance is for 10% growth over 2019 estimated revenues of $1.48 billion.
- Includes 11 months of ITG and reflects lower anticipated revenues in 2020 from current FEMA-funded disaster recovery contract in Puerto Rico following a recent insourcing initiative by the client.
- Does not include any additional contract wins or plus-ups in disaster recovery, nor any material benefit from related mitigation contract or energy efficiency contract wins in California.
- Interest expense will be higher year-on-year and the tax rate is expected to return to normalized rates and be approximately 300 basis points higher than in 2019.
In Summary

- Acquisition aligned with ICF’s growth strategy
- Positions us for accelerated growth in the large IT modernization government market
- Revenue synergies identified
- Strong cultural fit with experienced leadership
