ICF International Awarded a $US31 Million Contract with the U.S. Department of Health and Human Services

October 12, 2006

ICF Caliber Wins All Major Contract Recompetitions

FAIRFAX, Va.--(BUSINESS WIRE)--Oct. 12, 2006--Caliber, an ICF International company, was awarded Children's Bureau Clearinghouse Services, a five-year, US$31 million contract with the U.S. Department of Health and Human Services (HHS), Administration on Children, Youth, and Families (ACYF), Children's Bureau. This is the third time that ICF Caliber has been awarded this contract. For the past 16 years ICF Caliber has been supporting the Children's Bureau as it seeks to improve safety, permanency, and well being for our nation's children. This is the third ICF Caliber award, two of which were previously announced, resulting from recompetition of four existing key contracts in the past month (two contracts were combined into one award), bringing the cumulative total to US$96 million.

"We look forward to working with HHS to deliver the information critically necessary to help professionals, parents, and communities understand and meet our children's needs, preventing them from harm," says Mary Sullivan, a senior vice president at ICF Caliber and project director. "ICF Caliber's specialized knowledge and proven track record in partnering with the Children's Bureau will give HHS the resources to support States and Tribes in improving their child welfare service systems."

ICF Caliber will be tasked with further development and expansion of clearinghouse services, including management, technical, logistical, and administrative services in the areas of child abuse and neglect, child welfare, and adoption. The team will operate Child Welfare Information Gateway using comprehensive knowledge management and information and acquisition systems that will serve as the backbone for the Web site, library, and product development. Additionally, the team will collect and provide access to a wide scope of materials on practice, theory, research, and policy. The Children's Bureau seeks to enhance the lives of children and their families, and provide information and other assistance to professionals and parents alike.

ICF International (NASDAQ:ICFI) partners with government and commercial clients to deliver consulting services and technology solutions in the energy, environment, transportation, social programs, defense, and homeland security markets. The firm combines passion for its work with industry expertise and innovative analytics to produce compelling results throughout the entire program life cycle, from analysis and design through implementation and improvement. Since 1969, ICF has been serving government at all levels, major corporations, and multilateral institutions. More than 1,800 employees serve these clients worldwide.

This press release may contain forward-looking statements that reflect our current expectations regarding the services we will provide under the contract with the U.S. Department of Health and Human Services (HHS) and the outcome of the services rendered to HHS, and in connection with previously announced contract wins. Words such as "will" and "seek," and similar words or phrasing, identify forward-looking statements. These statements are not guarantees and involve risks and uncertainties that could cause actual results to differ materially from those anticipated in the forward-looking statements. These risks and uncertainties include, but are not limited to, the fact that funding under these contracts is not guaranteed, risks related to the actual performance of services under these contracts, risks associated with the satisfaction by the clients of their requirements under these contracts, and the risk that the clients request no services or substantially less in services than allowed by these contracts. For other factors that could cause ICF International's results to vary from expectations, please see the risks detailed from time to time in our filings with the Securities and Exchange Commission, including in our Registration Statement on Form S-1 under the caption "Risk Factors."
