ICF International Awarded Contract with Environmental Protection Agency and ENERGY STAR® for Over US$20 Million to Partner with Organizations to Reduce Greenhouse Gas Emissions Through Sound Energy Efficiency Investments

January 3, 2007

ICF to Provide Technical Assistance, Partnerships, and Strategic Marketing

FAIRFAX, Va.--(BUSINESS WIRE)--Jan. 3, 2007--ICF International (Nasdaq:ICFI) announced today that it was awarded ENERGY STAR® Market Transformation in Buildings and Facilities, a five-year, over US$20 million contract with the U.S. Environmental Protection Agency (EPA), Office of Air and Radiation, Office of Atmospheric Programs, Climate Protection Partnership Division. This is a recompete contract and ICF has been supporting this contract for ten years. Through this voluntary program, EPA partners with organizations (corporations, states and local governments, federal agencies, and academic and non-profit organizations) to reduce greenhouse gas emissions (GHG) through sound energy efficiency investments in buildings and facilities.

“Our broad substantive knowledge in energy and environmental markets and our understanding of the factors and trends that drive decision-making have enabled ICF to successfully advise EPA and ENERGY STAR for more than 15 years,” said Mike Mernick, senior vice president at ICF and manager of ICF’s energy efficiency line of business. "We look forward to a continued successful partnership with EPA on this essential national program."

"ENERGY STAR is one of the most trusted brands representing energy-efficient products and services. We are pleased to continue to contribute to the program and support its growth in new areas," said Deborah Miller, vice president at ICF and program manager under the contract.

ICF will work with ENERGY STAR to develop strategic relationships with key companies, organizations, and trade associations and support them in developing comprehensive energy management programs. ICF will also provide recommendations to EPA for strategic marketing of ENERGY STAR and support the development of tools and resources required to support sound energy management practices and strategic energy efficiency investments.

ICF International (Nasdaq:ICFI) partners with government and commercial clients to deliver consulting services and technology solutions in the energy, environment, transportation, social programs, defense, and homeland security markets. The firm combines passion for its work with industry expertise and innovative analytics to produce compelling results throughout the entire program life cycle, from analysis and design through implementation and improvement. Since 1969, ICF has been serving government at all levels, major corporations, and multilateral institutions. More than 1,800 employees serve these clients worldwide. ICF's Web site is http://www.icfi.com.

This document may contain "forward-looking statements"--that is, statements related to future—not past—events, plans, and prospects. In this context, forward-looking statements may address matters such as our expected future business and financial performance, and often contain words such as "guidance," "expects," "anticipates," "intends," "plans," "believes," "seeks," "should," or "will." Forward-looking statements by their nature address matters that are, to different degrees, uncertain. For ICF, particular uncertainties that could adversely or positively affect the Company's future results include: risks related to the government contracting industry, including possible changes in government spending priorities; risks related to the Company's business, including its dependence on contracts with U.S. Federal Government agencies and departments and continued good relations, and being successful in competitive bidding, with those customers; performance by ICF and its subcontractors under a major contract with the State of Louisiana, Office of Community Development; uncertainties as to whether revenues corresponding to the Company's contract backlog will actually be received; strategic actions, including the ability to make acquisitions and the performance and future integration of acquired businesses; risk associated with operations outside the United States; and other risks and uncertainties disclosed in the Company's filings with the Securities and Exchange Commission. These uncertainties may cause ICF's actual future results to be materially different than those expressed in the Company's forward-looking statements. ICF does not undertake to update its forward-looking statements.
