This document may contain "forward-looking statements"--that is, statements related to future--not past--events, plans, and prospects. In this context, forward-looking statements may address matters such as our expected future business and financial performance, and often contain words such as "guidance," "expects," "anticipates," "intends," "plans," "believes," "seeks," "should," or "will." Forward-looking statements by their nature address matters that are, to different degrees, uncertain. For ICF, particular uncertainties that could adversely or positively affect the Company's future results include: risks related to the government contracting industry, including possible changes in government spending priorities; risks related to the Company's business, including its dependence on contracts with U.S. Federal Government agencies and departments and continued good relations, and being successful in competitive bidding, with those customers; funding of task orders; performance by ICF and its subcontractors under a major contract with the State of Louisiana, Office of Community Development; uncertainties as to whether revenues corresponding to the Company's contract backlog will actually be received; strategic actions, including the ability to make acquisitions and the performance and future integration of acquired businesses; risk associated with operations outside the United States; and other risks and uncertainties disclosed in the Company's filings with the Securities and Exchange Commission. These uncertainties may cause ICF's actual future results to be materially different than those expressed in the Company's forward-looking statements. ICF does not undertake to update its forward-looking statements.
