

## Contract to Conduct EIA in Siberia Goes to ICF International Moscow Subsidiary, ICF/EKO

May 28, 2008

Study to be Conducted Under New, Stronger Environmental Regulations

FAIRFAX, Va.--(BUSINESS WIRE)--May 28, 2008--ICF International (NASDAQ:ICFI) announced today its Moscow subsidiary, ICF/EKO, has been awarded a new contract valued at approximately US\$2 million to conduct an Environmental Impact Assessment. The EIA will support the development of a forest products complex in the Lower Angara Region, Krasnoyarsk Krai, in the Siberian region of Russia.

ICF/EKO will perform as a subcontractor to KSH Solutions Inc., Montreal, Canada, which is the nominated subcontractor of MAN Ferrostaal AG, Essen, Germany, the engineering, procurement, and construction contractor for the complex. Under the eight-month contract, ICF/EKO will assist the firm to ensure the EIA is in compliance with national and international standards.

"ICF/EKO has a deep understanding of the unique biodiversity of the Lower Angara Region and is pleased to have been selected to perform this work," said Kathleen Thrun, a company vice president and environmental expert. "We are committed to helping establish sound policies and strategies to protect and sustain the natural resources here."

The study will focus on environmental aspects of the region and cover site access, the two major operations of the project--a sawmill and kraft pulp mill--and ancillary facilities. The territory is considered a major investment opportunity, rich in natural resources, and is one of the most densely wooded areas in Russia.

### About ICF International and ICF/EKO

ICF International (NASDAQ: ICFI) partners with government and commercial clients to deliver consulting services and technology solutions in the energy, climate change, environment, transportation, social programs, health, defense, and emergency management markets. The firm combines passion for its work with industry expertise and innovative analytics to produce compelling results throughout the entire program life cycle, from analysis and design through implementation and improvement. Since 1969, ICF has been serving government at all levels, major corporations, and multilateral institutions. More than 3,000 employees serve these clients worldwide. ICF's Web site is [www.icfi.com](http://www.icfi.com).

ICF/EKO, ICF International's, subsidiary in Russia, established in 1992, was one of the first private environmental consulting companies in the Commonwealth of Independent States. The firm provides a wide range of environmental and related consulting services to private and public clients, including assessments, management systems, and regulations and standards. It also provides consulting services in climate change and energy markets. ICF/EKO's Web site is [www.icfeko.ru](http://www.icfeko.ru).

### Caution Concerning Forward-looking Statements

This document may contain "forward-looking statements" as that term is defined in the Private Securities Litigation Reform Act of 1995--that is, statements related to future--not past--events, plans, and prospects. These statements involve known and unknown risks, uncertainties, and other factors that may cause our actual results, levels of activity, performance, or achievements to be materially different from any future results, levels of activity, performance, or achievements expressed or implied by such forward-looking statements. In some cases, you can identify these statements by forward-looking words such as "guidance," "anticipate," "believe," "could," "estimate," "expect," "intend," "may," "plan," "potential," "seek," "should," "will," "would," or similar words. You should read statements that contain these words carefully because they discuss our future expectations, contain projections of our future results of operations or of our financial position, or state other forward-looking information, and are subject to factors that could cause actual results to differ materially from those anticipated. For ICF, particular uncertainties that could adversely or positively affect the Company's future results include but are not limited to: risks related to the government contracting industry, including the timely approval of government budgets, changes in client spending priorities, and the results of government audits and investigations; risks related to our business, including our dependence on contracts with U.S. Federal Government agencies and departments and the State of Louisiana; continued good relations with these and other customers; success in competitive bidding on re-compete and new contracts; performance by ICF and its subcontractors under our contract with the State of Louisiana, Office of Community Development, including but not limited to the risks of failure to achieve certain levels of program activities, termination, or material modification of the contract, and political uncertainties relating to The Road Home program; uncertainties as to whether revenues corresponding to the Company's contract backlog will actually be received; the future of the energy sector of the global economy; our ability to attract and retain management and staff; strategic actions, including attempts to expand our service offerings and client base, the ability to make acquisitions, and the performance and future integration of acquired businesses; risks associated with operations outside the United States, including but not limited to international, regional, and national economic conditions, including the effects of terrorist activities, war, and currency fluctuations; and other risks and uncertainties disclosed in the Company's filings with the Securities and Exchange Commission. These uncertainties may cause ICF's actual future results to be materially different than those expressed in the Company's forward-looking statements. ICF does not undertake to update its forward-looking statements.
