

ICF International Awarded Two Contracts with Centers for Disease Control and Prevention

October 31, 2013

Combined Value of Contracts Totals Approximately \$10 million

FAIRFAX, Va.--(BUSINESS WIRE)--Oct. 31, 2013-- ICF International (NASDAQ:ICFI), a leading provider of consulting services and technology solutions to government and commercial clients, has been awarded two re-compete contracts with the U.S. Department of Health and Human Services, Centers for Disease Control and Prevention (CDC), to provide support to the National Program of Cancer Registries (NPCR) and the National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP). The contracts, which were awarded in the third quarter of 2013, have a combined value of \$10.2 million.

Specifically, ICF won a contract with the CDC Cancer Surveillance Branch for the maintenance and enhancement of functions of the NPCR Cancer Surveillance System, which include collecting, processing, evaluating, analyzing, and disseminating cancer incidence data from NPCR-funded states. The contract has a value of \$8 million with a one year base period and three option years. In addition, ICF won a contract with the CDC NCCDPHP to provide support in expanding the data collection infrastructure of the NPCR for Patient Centered Outcomes. The contract has a value of \$2.2 million and a period of 18 months.

Under these contracts, ICF will continue to provide valuable support to the CDC and the NPCR in enhancing data collection to include supporting states in conducting active follow-up, which is important in ensuring more complete information on a cancer patient's progression, recurrence, and vital status.

"ICF is very proud to have supported the CDC's NPCR for over 12 years," said [Don McMaster](#), vice president for ICF International. "We look forward to continued support of the CDC and NPCR."

About ICF International

ICF International (NASDAQ:ICFI) partners with government and commercial clients to deliver professional services and technology solutions in the energy, environment, and infrastructure; health, social programs, and consumer/financial; and public safety and defense markets. The firm combines passion for its work with industry expertise and innovative analytics to produce compelling results throughout the entire program lifecycle, from research and analysis through implementation and improvement. Since 1969, ICF has been serving government at all levels, major corporations, and multilateral institutions. More than 4,500 employees serve these clients from more than 60 offices worldwide. ICF's website is <http://www.icfi.com>.

Caution Concerning Forward-looking Statements

Statements that are not historical facts and involve known and unknown risks and uncertainties are "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995. Such statements may concern ICF's current expectations about its future results, plans, operations and prospects and involve certain risks, including those related to the government contracting industry generally; ICF's particular business, including its dependence on contracts with U.S. federal government agencies; and its ability to acquire and successfully integrate businesses. These and other factors that could cause ICF's actual results to differ from those indicated in forward-looking statements are included in the "Risk Factors" section of ICF's securities filings with the Securities and Exchange Commission. The forward-looking statements included herein are only made as of the date hereof, and ICF specifically disclaims any obligation to update these statements in the future.
