Cautionary statements

Caution Concerning Forward-looking Statements

Statements that are not historical facts and involve known and unknown risks and uncertainties are "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995. Such statements may concern our current expectations about our future results, plans, operations and prospects and involve certain risks, including those related to the government contracting industry generally; our particular business, including our dependence on contracts with U.S. federal government agencies; and our ability to acquire and successfully integrate businesses. These and other factors that could cause our actual results to differ from those indicated in forward-looking statements that are included in the "Risk Factors” section of our securities filings with the Securities and Exchange Commission. The forward-looking statements included herein are only made as of the date hereof, and we specifically disclaim any obligation to update these statements in the future.

Note on Non-GAAP Measures

The information presented in this presentation regarding certain unaudited adjusted results and certain historical adjusted results does not conform to generally accepted accounting principles in the United States (U.S. GAAP) and should not be construed as an alternative to our reported results determined in accordance with U.S. GAAP. ICF has included this non-GAAP information to assist in understanding the operating performance of the company. The non-GAAP information provided may not be consistent with the methodologies used by other companies to prepare similar non-GAAP measures. All non-GAAP information has been reconciled with reported U.S. GAAP under Appendix 1 and 2 of this presentation. Additionally, ICF does not reconcile its forward-looking non-GAAP financial measures to the corresponding U.S. GAAP measures, due to the variability and difficulty in making accurate forecasts and projections and because not all of the information necessary for a quantitative reconciliation of these forward-looking non-GAAP financial measures (such as the effect of share-based compensation or the impact of future extraordinary or non-recurring events like acquisitions) is available to ICF without unreasonable effort. For the same reasons, ICF is unable to estimate the probable significance of the unavailable information. ICF provides forward-looking non-GAAP financial measures that it believes will be achievable, but it cannot accurately predict all of the components of the adjusted calculations, and the U.S. GAAP financial measures may be materially different than the non-GAAP financial measures.
Serve a roster of government clients with social + environmental missions, energy utilities + commercial clients

Deliver strong cross-cutting capabilities in technology + engagement

A growth platform combining organic initiatives + acquisitions

Leverage deep domain expertise to achieve superior results for clients

Benefit from visibility of a substantial backlog + growth profile of commercial revenues
ICF’s work across core service areas including climate, energy efficiency, disaster management, public health and social programs addresses environmental and social issues.

- **Energy, Environment, Infrastructure + Disaster Recovery**: 41%¹
- **Health and Social Programs**: 42%¹
- **Security and Other Civilian + Commercial**: 17%¹

¹Percentages based on full-year 2023 financials released on February 27, 2024
Track record of strong revenue and EPS growth

Revenue¹ 5-year CAGR 8.0%

Non-GAAP EPS¹ 5-year CAGR 11.7%

¹ 5-year Revenue and Non-GAAP EPS CAGR calculated over 2018–2023
Multiple catalysts for long-term organic growth

- Energy efficiency and utility consulting
- Climate, environment and infrastructure consulting
- Disaster management
- IT modernization / digital transformation
- Public health

~80% of revenue from continuing operations in 2023 represented work in these key growth areas, which are expected to grow 10% or more in the aggregate over the next several years.
ICF is a leader in implementing decarbonization programs (energy efficiency, electrification, flexible load management) for utilities. They are supporting utility transformation with distributed energy, grid resilience, and electrification (EVs, buildings, other). The majority of their contracts are long-term. They have active programs, utility clients, and large portfolios of work across North America. They lead in planning and policy development with DSM program design clients, potential study clients, and related regulatory testimonies.
Climate, environment and infrastructure consulting

• ICF has one of the largest full-service climate consulting practices in the U.S.
• 40+ years of climate-related experience – amplified by ICF Climate Center
• Unprecedented federal funding to address climate change
• Climate concerns and regulatory pressures driving increased investments by corporations and utilities

ICF has additional expertise in services closely connected to climate + infrastructure

Climate-adjacent services
Disaster mitigation
Decarbonization
Public health impacts
Environmental justice

Infrastructure-adjacent services
Energy
Environment
Water
Transportation
Recently enacted legislation and government spending priorities create additional opportunities

- Infrastructure Investment and Jobs Act (IIJA) – provides infrastructure and clean energy opportunities
- Inflation Reduction Act of 2022 (IRA) – provides significant climate and energy-related opportunities
• ICF is a leader in disaster management with a long track record of managing post-disaster federally funded recovery programs

• Federal funding for mitigation programs provides potential for steady flow of longer-term opportunities

Currently running disaster recovery programs in 20+ states and territories

Working on mitigation efforts for 30+ clients across 18 states and territories

Expect continued growth as appropriated disaster recovery and mitigation funds are released

ICF’s expertise in recovery and resilience is closely aligned with efforts to manage the effects of climate change
Acquisitions have significantly expanded our qualifications

IT modernization is a bipartisan priority

Provide significant revenue synergies in our federal civilian agency markets

ICF is now a recognized leader in the most widely used low-code / no-code and open-source platforms in the federal government
Public health

- HHS is ICF’s largest federal agency client – 26% of total revenues\(^1\)
- Recognized expertise in addressing critical health issues
  - Opioid abuse, obesity, cancer
- ICF has contract vehicles in all federal agencies actively involved in preparations for the next pandemic:
  - Modernization of disease surveillance systems
  - Guidelines for government roles and responsibilities in a pandemic

---

ICF is recognized for deep domain expertise in public health and expanded IT modernization capabilities

---

\(^1\) Based on full-year 2023 financials released on February 27, 2024
Based on full-year 2023 financials released on February 27, 2024, we serve a roster of government clients, energy utilities, and commercial clients. >90% of revenues come from government clients and energy utility clients. This provides significant opportunities for expansion.

- US Federal: 55%
- US State + Local: 16%
- Non-US Government: 5%

Our roadmap for long-term value creation

1. Capture organic growth enabled by strong positions in high growth markets and expanded addressable market

2. Drive revenue synergies and larger contract wins through ability to execute at scale

3. Make strategic and accretive acquisitions in areas we know

4. Gain operating efficiencies

5. Continue to invest in our people

6. Uniquely positive impact

(1) Represents impairment of operating lease right-of-use and leasehold improvement assets associated with exit from certain facilities, and an intangible asset associated with exit of a business.

(2) These are primarily third-party costs related to acquisitions and potential acquisitions, integration of acquisitions, and separation of discontinued businesses or divestitures.

(3) These costs are mainly due to involuntary employee termination benefits for our officers, and employees who have been notified that they will be terminated as part of a business reorganization or exit.

(4) These are exit costs associated with terminated leases or full office closures that we either (i) will continue to pay until the contractual obligations are satisfied but with no economic benefit to us, or (ii) paid upon termination and cease-use of the leased facilities.

(5) These costs represent incremental non-cash lease expense associated with a straight-line rent accrual during the “free rent” period in the lease for our new corporate headquarters in Reston, Virginia. We took possession of the new facility during the fourth quarter of 2021, while also maintaining and incurring lease costs for the former headquarters in Fairfax, Virginia. The transition to the new corporate headquarters was completed in the fourth quarter of 2022.

(6) These costs include legal and structuring fees related to our 2022 Master Receivables Purchase Agreement with MUFG Bank, Ltd. put in place for the sale of our receivables.

(7) Includes pre-tax gain of $2.5 million and of $3.2 million from the divestitures of our U.S. commercial marketing and Canadian mobile text aggregation businesses.

(8) Income tax effects were calculated using the effective tax rate, adjusted for discrete items, if any, of 21.1% and 25.5% for the three months ended December 31, 2023 and 2022, respectively, and 22.8% and 28.0% for the twelve months ended December 31, 2023 and 2022, respectively.
Appendix 2

These charges were related to the January 2019 bankruptcy filing of a utility client.

These costs include severance, pro rata incentive bonus, welfare benefits, and acceleration of equity awards we incurred under the departing officer’s severance agreement during the fourth quarter of 2020. As a result of the employment agreement, the departing officer was able to maintain certain equity awards beyond his retirement date, including performance-based awards that are subject to changes until they vest.

(1) These charges were related to the January 2019 bankruptcy filing of a utility client.

(2) These costs include severance, pro rata incentive bonus, welfare benefits, and acceleration of equity awards we incurred under the departing officer’s severance agreement during the fourth quarter of 2020. As a result of the employment agreement, the departing officer was able to maintain certain equity awards beyond his retirement date, including performance-based awards that are subject to changes until they vest.
About ICF
ICF (NASDAQ:ICFI) is a global consulting and digital services company with approximately 9,000 full- and part-time employees, but we are not your typical consultants. At ICF, business analysts and policy specialists work together with digital strategists, data scientists, and creatives. We combine unmatched industry expertise with cutting-edge engagement capabilities to help organizations solve their most complex challenges. Since 1969, public and private sector clients have worked with ICF to navigate change and shape the future.
